MBP8

Baby Monitor

The features described in this user's guide are subject to modifications without prior notice.

Welcome...

to your new Motorola Baby Monitor!

Thank you for purchasing the MBP8. Now you can hear your baby sleeping in another room.

Please retain your original dated sales receipt for your records. For warranty service of your Motorola product, you will need to provide a copy of your dated sales receipt to confirm warranty status. Registration is not required for warranty coverage.

For product-related questions, please call:

UK	**0845 218 0890**
ROI	**08187 62092**
Email:	**enquiries@binatone-support.co.uk**

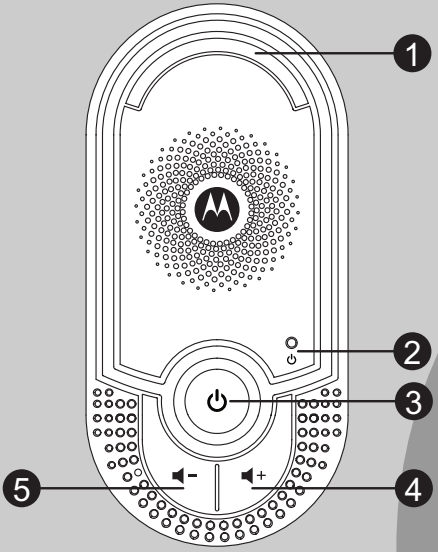
This User's Guide provides you with all the information you need to get the most from your product.

Before you can use the baby monitor, please read the Safety Instructions on page 6 before you install the units.

Got everything?

- 1 x Parent unit
- 1 x Baby unit

Overview of your Parent unit



1 Sound Level Indicators

3 GREEN and 2 RED LEDs indicate the audio level being picked up by the microphone of baby unit. The more LEDs that light up, the louder the sound is.

If no LED lights up, the sound level in the baby's room is below the threshold for the parent unit.

The LEDs are also used when adjusting the speaker volume setting on the parent unit, with more LEDs indicating a louder setting, from 0 to 5.

2 Link Indicator
On when the parent unit is powered on and linked to the baby unit.

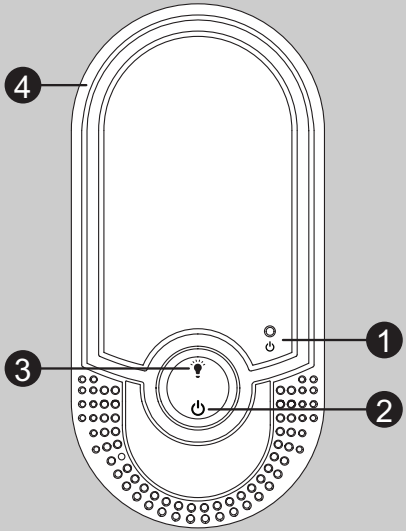
Flashes when the parent unit is out of range of the baby unit.

3 Power
Press and hold to power on/off the parent unit.

4 Volume +
Press to increase the speaker volume.

5 Volume -
Press to decrease the speaker volume.

Overview of your Baby unit



1 **Power Indicator**
On when the baby unit is switched on.

2 **Power**
Press and hold to power on/off the baby unit.

3 **Nightlight**
Press to turn on/off the nightlight.

4 **Nightlight output**
On when the nightlight is turned on.
Off when the nightlight is turned off.

Important guidelines for installing your Baby Monitor

- To use your baby unit and parent unit together, you must be able to establish a radio link between them, and the range will be affected by environmental conditions.
- Any large metal object, like a refrigerator, a mirror, a filing cabinet, metallic doors or reinforced concrete, between the baby and parent unit may block the radio signal.
- The signal strength may also be reduced by other solid structures, like walls, or by radio or electrical equipment, such as TVs, computers, cordless or mobile phones, fluorescent lights or dimmer switches.
- Use of other wireless products, such as wireless networks, Bluetooth systems or microwave ovens may cause interference with this product, so keep the baby monitor away from these types of products, or turn them off if they appear to be causing interference.
- If the signal is poor, try moving the parent and/or the baby unit to different positions in the rooms.
- It is recommended to place the baby unit about 1 metre from the Cot to ensure sound can be received and heard.
- It is essential to ensure sufficient clear space around the baby unit.

1. SAFETY INSTRUCTIONS

Presence of un-insulated “dangerous voltage” within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

WARNING:

Presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

This baby monitor is compliant with all relevant standards regarding electromagnetic fields and is, when handled as described in the User's Guide, safe to use. Therefore, always read the instructions in this User's Guide carefully before using the device.

- The socket outlet shall be installed near the equipment and shall be easily accessible.
- Determine a location for the baby monitor that will provide the best audio reception of your baby in his cot.
- NEVER place the baby monitor within the cot.
- Adult assembly is required. Keep small parts away from children when assembling.
- This product is not a toy. Don't allow children to play with it.
- This baby monitor is not a substitute for responsible adult supervision.
- Keep this User's Guide for future reference.
- Do not cover the baby monitor with a towel or blanket.
- Test this monitor and all its functions so that you are familiar with it prior to actual use.
- Do not use the baby monitor near water.
- Do not install the baby monitor near a heat source.

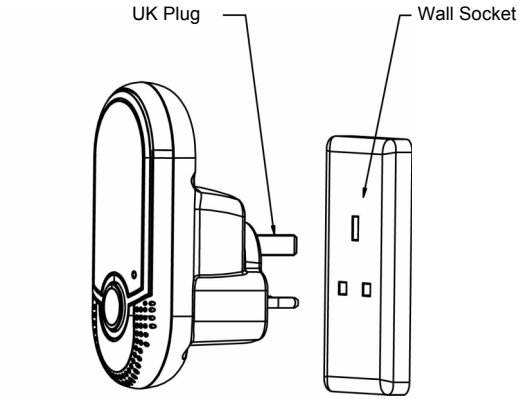
CAUTION

In order to reduce the risk of fire or electrical shock, do not expose the device to water or humidity. Never disassemble the device. Opening the casing is dangerous and will invalidate the warranty.

Main plug is used as disconnect device and it should remain readily operable during intended use. In order to disconnect the apparatus from the mains completely, the mains plug should be disconnected from the mains socket outlet completely.

2. GETTING STARTED

Baby monitor power supply



1. Choose a proper location with easy access to a mains socket.
2. Plug the baby unit into the mains socket in your baby's room. Ensuring sufficient clearance is given for it to detect sound and no more than 1 metre from the babies cot.
3. Plug in the parent unit where you want to monitor your baby.

3. USING YOUR BABY MONITOR

Please read these instructions carefully, and be aware that this baby monitor is only intended as an aid. It is not a substitute for responsible, correct parental supervision.

3.1 Power on/off the parent unit

1. When the parent unit is off, press and hold ⏻ until the **Link Indicator** is on. The parent unit is now powered on and will search for and link itself to the baby unit.
2. When the parent unit is on, press and hold ⏻ until the **Link Indicator** turns off. The parent unit is now powered off.

3.2 Power on/off the baby unit

When the baby unit is off, press and hold ⏻ until the **Power Indicator** is on. The baby unit is now powered on.

When the baby unit is on, press and hold ⏻ until the **Power Indicator** turns off. The baby unit is now powered off.

NOTE

Do not place the parent and baby units too close together, or you may hear a high pitched noise. This is not a fault. The units are designed to be operated at some distance apart, e.g. in separate rooms.

3.3 Set nightlight

The nightlight feature is for giving the room a soft glow so the baby can be observed without disrupting it with bright lights.

1. When the nightlight is off, press to turn it on.
2. When the nightlight is on, press to turn it off.

3.4 Adjust speaker volume

There are 6 volume levels on the parent unit, including volume off.

Press + to increase or − to decrease the volume of the parent unit respectively. The sound level LEDs will light up while adjusting the volume, to indicate the set level from 0 (off), 1 (quiet) to 5 (loud).

4. DISPOSAL OF THE DEVICE (ENVIRONMENT)

At the end of the product lifecycle, you should not dispose of this product with normal household waste. Take this product to a collection point for the recycling of electrical and electronic equipment. The symbol on the product, user's guide and/or box indicates this.

Some of the product materials can be re-used if you take them to a recycling point. By reusing some parts or raw materials from used products you make an important contribution to the protection of the environment.

Please contact your local authorities in case you need more information on the collection points in your area.

Dispose of the battery pack in an environmentally-friendly manner according to your local regulations.

5. CLEANING

Clean your MBP8 with a slightly damp cloth or with an anti-static cloth. Never use cleaning agents or abrasive solvents.

Cleaning and care

- Do not clean any part of the product with thinners or other solvents and chemicals - this may cause permanent damage to the product which is not covered by the warranty.
- Keep your MBP8 away from hot, humid areas or strong sunlight, and don't let it get wet.
- Every effort has been made to ensure high standards of reliability for your MBP8. However, if something does go wrong, please do not try to repair it yourself - contact Customer Service for assistance.

6. TROUBLESHOOTING

Link light on the parent unit does not come on

- Check whether the parent unit is powered on.

Link light on the parent unit flashes

- The parent unit and the baby unit may be out of range with each other. Reduce the distance between the units, but not closer than 1.5 metre.
- The baby unit may be switched off. Press and hold the ⏻ key on the baby unit to switch on the baby unit.

The parent unit beeps

- Lost connection with the baby unit. Reduce the distance between the parent unit and the baby unit, but not closer than 1.5 metre.
- The baby unit may be switched off. Press and hold the ⏻ key on the baby unit to switch on the baby unit.

Cannot hear sound or baby cry from the parent unit

- The volume level in the parent unit may be set too low, increase the volume level of the parent unit. Refer to section 3.4 for volume level settings.
- The parent unit and the baby unit may be out of range with each other. Reduce the distance between the units, but not closer than 1.5 metre.

The baby monitor system produces a high-pitched noise

- The parent unit and the baby unit are too close to each other. Make sure the parent unit and baby unit are at least 1.5 metre away from each other.
- The speaker volume of the parent unit maybe set too high. Decrease the volume of the parent unit.
